They stated that the sponsor had withdrawn funding from the group because of the action taken by EBC. Cllr Cockle in his position as Chairman of the Environment Committee reported that the Parish Council had made enquiries with the Enforcement Officer at EBC regarding the position relating to advertisements in the verge, and on buildings and with regards to planning breaches such as fences on the highway. Councillor Mounsey reported that the Parish Council were shocked by the swift action of the Borough Council to the enquiry. The In-Bloom members were upset as they are working very hard to improve areas in the village and the loss of funding was a great disappointment and could seriously jeopardise the groups entry into the competition this year. ### **3. Black Spots Report**

The Clerk reported that there had been little activity on the report and that she would chase all outstanding queries and report back to the next meeting.

### **4. Applications**

The Committee considered the following planning applications and the recommendations are as follows: -

**ERE/0218/0063 – 21 Firfield Avenue** – additional reports received (tree survey & Ecology)– regarding the previously submitted application – alterations to the ground levels in the rear garden. – The Parish Council had previously sent no objection in principle however it was noted that the area of ground being remodelled contained a number of significant trees and any changes to the ground levels could have a detrimental effect. It was suggested that a tree survey should be submitted with the application so that appropriate protective measures could be taken.

Following reading the tree survey concerns were raised that such a large number of mature trees were to be lost and that the tree numbers T6, T7, T8 & T9 should be afforded protection to prevent them also being felled.

The Ecology report states that there is no sign of any life such as bats, bird, voles, reptiles, moles etc in the garden – this is considered unlikely and supported by the fact that the report states: “The inspection of the garden was completed in February outside the optimum / sub-optimum survey period for many protected species”.

**ERE/0218/0067 - 50 Stevens Lane** - Revisions to siting and design of plot 1 – AMENDED PLANS (resubmission of ERE/0517/0047) partial demolition & conversion of commercial

premises and erection of 2 new detached houses & garages. The Parish Councils previous comments were: No objection in principle however the proximity between the existing building and house number 1 needs to be examined closely. Despite the alterations to the plans, to which we have no objections, the proximity of plot 1 to the adjacent property is still of concern.

**ERE/041/8/0039- Church Wilne Treatment Works, Draycott Road, Sawley** - Demolition of existing Kalic Tank and Motor Control Centre (MCC) Kiosk and installation of a building to house Granular Activated Carbon (GAC) filter beds – No objections

**ERE/0418/0013 - 53 Longmoor Lane** - Prior Notification Single Storey Rear Extension -No consultation.

**ERE/0518/0001 - 62 Risley Lane** -Two Storey Extension to western and southern sides. Creation of new access to Rectory Road. (Resubmission in amended form of application ERE/0717/0031 alterations to west elevation through additional window and brickwork) There is insufficient off-street parking and the site planning of the two additional houses does not adequately deal with the matter of daylight and sunlight to the habitable rooms of the existing property at number 62 Risley Lane. Concerns are raised over the conditions of the previous decision having been breached and the issues raised in correspondence from Mr & Mrs Whitmore need to be taken into consideration. Letter from Mr & Mrs Whitmore to be forwarded to the Planners.

## 5. Decisions

The following decisions had been made by Erewash Borough Council: -

ERE/0218/0019 – 17 Hills Road – approved with conditions 5.4.18.

## 6. For Information Only

### a) Planning law infringements

Issues relating to advertisement and breaches of planning were discussed at length and Cllr Elliott plans to speak to L Rayner at EBC regarding the regulations. It was confirmed that an article regarding the rules about planning would be included in the next Parish Newsletter.

**b) Woodland Trust Free Tree Offer** – Cllr Rowlinson reported that the In-Bloom Group had been offered free trees from the Woodland trust and it had been suggested that the trees could be planted along the verges on Longmoor Lane. The Clerk suggested that the group should contact DCC and ask about permissions to plant in the verge. It was thought unlikely that permission would be granted for the planting of trees. The Clerk also cautioned that the size of the "trees" was always very small and that they would need a lot of care and attention to achieve any sort of growth.

Meeting closed 10.30am

Cllr Rowlinson reported that she had contacted DCC in her role as secretary of the In-Bloom Group and that they had confirmed that they would be unlikely to give permission to plant trees in the verges on a highway.
